## TOOWONG WARD

*Getting the priorities right* 

The proposed Rosalie Loop will connect residents from Bardon, Rainworth, Rosalie, Auchenflower, Milton, Petrie Tce, Paddington and Red Hill to numerous parks, schools, shopping precincts and other community locations, including:

- Four local schools (St Josephs, Milton SS, Petrie Tce SS, Rainworth SS)
- Ithaca Swimming Pool and skate park
- Suncorp Stadium
- Milton Train Station
- CityCycle station (Park Road)
- The proposed Park Road CityCat Terminal (election commitment from Ray Smith and Yvonne Li)
- Sunday Bardon Markets on Baroona Road
- Bus services in Red Hill that connect residents to services in Ashgrove / The Gap
- 11 local shopping precincts:
  - Bardon shops
  - Rainworth shops
  - Rosalie Village
  - Baroona Road Shops
  - Park Road Shops
  - The Barracks
  - Caxton Street
  - Given Tce shops
  - Red Hill shops
  - Paddington Central
  - Latrobe Tce shops

Additional benefits of the Rosalie Loop include:

1. Residents do not have to go all the way into the city and back again – eg Bardon residents to Park Road
2. Students from Paddington and Bardon will be able to travel to UQ via the proposed new CityCat terminal at Park Road
3. Some existing bus services (eg 385) do not stop at every stop along the Paddington shopping strip
4. The 471 bus is infrequent and often late (or does not arrive at all!). It also only provides four services before 9am, and just three after 5pm.
5. The 475 goes up Milton Road and does not stop at the top during peak hour
6. The Rosalie Loop will help relieve local congestion by giving residents a real transport alternative and taking cars off the road
7. Encouraging local residents support local businesses
